Hi Dan,

Blindspot already has brand, press, word of mouth, and proof from campaigns like Pepsi and UiPath. The constraint now is different: turn that trust into signups and demos that become real media spend.

I think the Head of Growth brief needs a system before it needs more channel activity.

The short page shows how we would run that function across SEO, content, email, LinkedIn, landing pages, partnerships and tracking so the fit is easy to judge.

Allen
