Hi Anna,

You are hiring a part-time Marketing Strategist to lead LinkedIn growth for B2B clients, and the role is wider than content. It includes ICP, positioning, messaging, inbound, outbound, strategy calls, and performance tracking.

My plain opinion: that can work as a hire, but it is also the kind of brief where a small done-for-you team can reduce ramp-up risk.

A short plan is below the note so you can check fit quickly.
