

29 August

Hi Marija,

You are asking one Marketing Assistant to cover Instagram, TikTok, Facebook, Reddit, email, WhatsApp, webinars, copy, reporting, and AI automation. That is a lot for one part-time person to carry cleanly.

My honest view is that fertility marketing needs a tighter system than usual because the audience is sensitive and the copy has to build trust without getting casual.

The short plan below shows how we would run organic user acquisition toward booked consultations, including channels, automation, reporting, and pricing, so you can judge fit quickly.

Allen
