

12 September

Hi Tommaso,

You are not asking for a big brand campaign. You are trying to use a capped LinkedIn and Instagram test to learn which Musta message gets operations and team leads into the Rate My Meetings quiz.

I think the main risk is not low spend. It is unclear signal, especially if creative comparisons and source attribution are not clean before launch.

The page covers how I would structure the test, protect the budget, report on quiz completion instead of vanity reach, and judge whether TGE is a fit.

Allen
