Hi Jesse,

Doorly is hiring a Social Media Manager to own organic social across Instagram, Facebook, LinkedIn, TikTok, and X, without making it feel like a traditional mortgage-company account.

My opinion: this is less about finding someone to post daily and more about building a repeatable consumer-brand system that can turn homebuying education into trust and owner intent.

The short plan below compares that role-hire path with a done-for-you team path, so you can judge which fit is cleaner for Doorly.

Allen
