

29 August

Hi Grace,

Grace, the brief asks for a Dental Practice Instagram Manager for Sweet Tooth Dentistry, with setup, content management, social posts, and a handoff.

One thing I cannot know from the post is your current Instagram data or how leads are handled after a DM, form, or call. My view is that the handoff matters as much as the posts.

The page lays out the team-based path I would run, what gets built first, and how it would be judged against qualified leads.

Allen
