Hello GuestLinkup.com team,

You already have a working booking platform. The hard part is getting the right travelers researching Darjeeling, Sikkim, Gangtok, Kalimpong, and nearby routes to move from interest into property views, checkout, promo codes, and completed bookings.

I agree with your constraint: clicks and impressions are the wrong finish line here. Content, Meta, Instagram, YouTube, GA4, UTMs, and retargeting all need to point at qualified leads and bookings.

A short plan is below the note for an easy fit check.

Allen
