29 October

Hi Sharlene,

I'd compare outreach to principals and district buyers separately, using the same offer where it fits and recording which conversations lead to proposals. For AssessED, that could mean seeing whether school level or district level contacts are more likely to start a demo or pilot.

The brief says schools are reallocating discretionary funds, so I'd also note each prospect's budget timing in GoHighLevel. That could help decide whether to adjust the offer or follow up when the school is ready to consider it.

Allen
