Hello Dr. Delagen team,

You are not hiring for scripts only. The hard part is ownership across research, angles, briefs, editor feedback, testing, performance reads, and iteration without letting weekly volume outrun reasoning.

My honest view is that the first leverage point is the feedback loop from winners and losers, especially for women 40+ in US/AU/CA skincare. The proposal page lays out a 90-day system, pricing, pilot option, and proof for that. A short plan is below the note.

Allen
