Hi Aymen,

Aymen, your post reads like a real Senior Media Buyer role, not a task list. The key constraint is daily account ownership across multiple meta accounts, with budget moves, winner scaling, loser cuts, and issue spotting handled before anything slips.

My opinion: for this seat, a small done-for-you team can remove some single-hire risk while still working inside your SOPs for ABO testing, CBO scaling, and bid cap hyper-scaling.

A short plan is below this note so you can judge fit from the work, not the pitch.

Allen
