Hello Doggy'n Me team,

You already have the brand, website, photography, and visual identity, so the real job is not a rebrand. It is translating Doggy'n Me into a stronger Instagram and Facebook presence for West LA and Culver City before the expansion.

I think the setup should be judged by whether it creates qualified daycare and boarding inquiries, not just a cleaner feed.

The page lays out the diagnosis, first actions, execution plan, pricing, and a fit check.

Allen
