

10 September

Hi Atif,

Outreach is already running through Instantly, Apollo and LinkedIn, and deliverability is healthy. So I would not treat this like a volume problem.

The real work is diagnosing why the market is not responding, then rebuilding ICP, offer angle, lead magnet, copy, follow-up and qualification for Authority Engine and FCI Learn separately.

I put the short plan below so you can judge whether a done-for-you team is a better path than hiring one outbound operator.

Allen
