

10 September

Hello MarketNest team,

You are not just trying to advertise a mobile app locally. You need local retailers, merchants, vendors, and service providers to list products and post ads on MarketNest.

My plain opinion: the 100 retailers posting 10 ads each goal needs a recruiting system before it needs more general promotion.

The page covers how I would turn the brief into a measurable path to qualified leads, listings, tracking, pricing, and a simple fit check.

Allen
