

10 September

Hi Atif,

Outreach. You already named the real issue: Instantly, Apollo and LinkedIn are in place, deliverability is healthy, but the messaging is not creating enough positive replies.

My view is that this is less a volume problem and more an ownership problem across ICP, offer angle, list quality, lead magnet, copy, and follow-up.

The page lays out how TGE would cover the operator role as a done-for-you team for Authority Engine and FCI Learn, with the fit check on qualified leads.

Allen
