Hi Abdifatah,

You are not looking for a general marketer. You need someone who understands how families search for domiciliary care, home care, elderly care, private care, and support for older adults in the UK.

My view is that this works best when search, Facebook, GBP, SEO, referrals, tracking, and enquiry follow-up are run as one acquisition system, not separate marketing tasks.

The page below lays out how TGE would cover the Care Marketing Specialist role as a done-for-you team, with the first 90 days focused on qualified enquiries, CPL, and client acquisition.

Allen
