

10 September

Hello STREAKLEAGUE • SETTLE • team,

You are not looking for someone to schedule finished posts. You need one person to turn approved briefs into videos, graphics, community seeding, creator follow-up, tracking, and weekly updates across StreakLeague, Settle, and Shothox.

I think the hard part is keeping the work tied to activated users, not likes. Each app needs a different content rhythm because StreakLeague, Settle, and Shothox have different user actions.

The short plan below shows how I would run the first 90 days so you can judge fit from the work.

Allen
