Hi Ethan,

I'd group enquiries from flower bed renewals separately from full landscape renovations, then check how many in each group reach a consultation or proposal. Since TSL is looking for projects of $10,000 or more, that comparison could show which type of enquiry is bringing in work closer to the projects you want.

Your VA can share those outcomes, so I'd use them when deciding which approved ads deserve more of the monthly budget. That gives the decision a clearer basis than form submissions alone.

Allen
