

5 September

Hi Luke,

You are looking for someone to fully own Meta strategy and account management across B2B AI SaaS, B2C AI SaaS, and an agency offer.

My honest take: that is a lot for one hire unless they are strong across buying, creative strategy, conversion, and follow-up. A small senior team may be the lower-risk path.

The page shows how we would structure the first 90 days for qualified leads, including what we would do first and what it would cost.

Allen
