Hi Michael,

You are trying to launch 3 Meta sales campaigns for America Is Flatlining at \$8 per day, with 3 UGC ads based on character sketches and dialogue you will provide.

My plain opinion is that the win here is not just getting ads live. It is making the first 30 days teach you which reader angle, hook, and Amazon path can turn into qualified leads.

The page lays out how I would structure the Meta test, UGC production, Amazon follow-up, and the repeatable system your team can use after month one.

Allen
