Hello SmileCompare team,

You are not just looking for Meta ads.
You are hiring for a hands-on Growth
Marketing Lead who can own patient
signups, practice leads, social content,
tracking, and weekly decisions with
limited founder direction.

My plain opinion: this is risky for one
person unless they are unusually strong
across buying, creative, analytics, and
marketplace messaging.

The page lays out how TGE would cover
the role as a small accountable team,
including the first 30 days, what we would
need from you, and where the
unknowns sit.

Allen
